BAT NELSON MUST BE VERY CAREFUL

When He Meets Terry M'Govern In Philadelphia Next Month.

A WAY OF BEATING THE DANE.

Once Terrible One Thinks He Has it All Figured Out How He Will Win the Championship.

In Phisdelphia, on March 14. Battling Nelson and Terry McGovern will meet in the squared circle. To be sure the bout will be one of those six-round affairs with no decision rendered. The length of the mill, or rather the shortness of it, is anything but advantageous to the Durable Dane, and Bat will have to be might; careful or there will be a bad crimp in careful or there will be a bad crimp in his record. Aithough McGovern was twice beaten by Young Corbet, and the latter twice heaten by Young Corbet, and the latter twice heaten by Nelson, the once terrible one stin his to be recooned with needed to be at the life to be the top of the latter twice heaten by Nelson, and the Corbett whipped by Nelson was title like the Corbett whipped by Nelson was title like the Corbett in the latter that whipped hittle release. Accovern has an advantage in a short light it just suits his will will style while it is well known that Nelson rarely gets started anti-after the hith of skin round.

Accovern has it all figured out how he will beat Nelson and thus regain the championship. In Cincinnati he made the lonowing statement a only or two ago;

"He's a good one and he mistake, but if he wants the championship after we fight he'l back."

Terry's calculations on certain victory are based mainly on two of his knockouts, those of Eddie Hanlon and the Mexican wonder, Aurelio Herrera. Both or jusce lads went down in the middle of the fifth round, but Herrera stayed the limit, twenty rounds, with Nelson, who was given the decision. It took Nelson eighteen rounds to stow away Hanlon; thus Terry ngures out that he's the better man of the two, and he cannot understand to this day how he came to lose to Young Corbett either time they lought.

"Why, I ought to have licked him both times," said Terry, "It looked to me like his record. Aithough McGovern was twice

derstand to this day now he came to lose to Young Corbett either time they rought.

"way, I ought to have licked him both times," said Terry, "It looked to me like a cinch, but something went wrong and I missed the combination. "Lose two lights are the complication." This Mexican Herrera is a great lighter, but he can be wailoped if you go at him in the right way. The trouble with most lads who meet the Greaser is that they go after his head, and he can't be hurt there, it took me just three rounds to find that out when I tackled him. He's got a pair of humped-up shoulders, hard as iron, and all he has to do is to strugthem a little when he wants to guard his jaw, when I fought him there was a way of coin bet that I would put him out in three rounds. I tried to do it by siamming at his noggin, but every time I sent a sieep-producer his way, up went that fron-hound shoulder, and there was nothing doing. He always came back with that grita of his on his face that looked like he wanted to say, 'Never touched me' in Spanish. There was another bunch of money bet that I would make Herrera take the count in five rounds, and I made up my mind I would win that, so I started for the Mexican's body, and in a few seconds I knew I was on the right road, and I kept going for the heart and stomach, and it took me just a round and a hair to send him out for good, with a jau over the heart."

lenge is Received.

New York, Feb. 8.—In discussing the possibilities of a challenge for the America's cup from Sir Thomas Lepton or another foreign source, and the probable course of the New York Yacht club on receipt of such a challenge, says today's Times, the astonishing statement was made by a prominent member of the New York club yesterday that the Reliance would be used in all probability as the defender of the cup, even though the challenge called for a race with schooners, as has been suggested, and that to meet these conditions she would be converted, it is a perfectly practical suggestion, and meets Sir Thomas' and any other challenger at every point.

meets Sir Thomas' and any other challenger at every point.

If 70-foot sloop, as suggested by Sir Thomas, is named as the challenger, the challenge will be accepted and the Reltance be used as the challenge boat in spite of the big allowance she would have to give. If the 110 schooner is named, Reliance will be converted and will still be the defender. If a 9-foot sloop is named, it will, of course, be Reliance which will cross the line as the defender of America's priceless trophy, Under old rule of under new, Reliance is looked upon as capable of successfully defending the cup, and will remain the club's reliance.
